Good morning from Boston's Moakley Federal Courthouse, where day 4 of evidence in the Sandra Birchmore and Matthew Farwell trial is about to begin.

The defense has asked for 15 minutes to address a matter that was just brought to their attention by the DOJ.

Judge says that is okay, and Judge begins by talking about outstanding evidentiary motions.

Sadly, I dropped my backpack on the way in and my computer screen is damaged. I am working around the issue.

BREAKING NEWS:

John Fanning, Brian Tully's first officer and right hand man in the now-infamous Norfolk County State Police unit, will be called as a defense witness by Matthew Farwell in the federal trial related to Sandra Birchmore's death.

The DOJ will be crossing Fanning (this will occur towards the end of trial, after the prosecution rests their case-in-chief).

The DOJ has already laid extensive foundation that Fanning and Tully's state police unit, along with the Norfolk DA's office run by Michael Morrissey, covered up Sandra's murder for years (until FBI and DOJ intervention exposed it all).

"In that IA investigation that I just asked you about, did that include investigating certain information about Matthew Farwell's relationship with Sandra Birchmore?"

"Did that involve an investigation into potential exploitation of Sandra as a child?"

"Yes."

"Did that include deprivation of rights under color of law?"

Oh, yikes, the Stoughton PD was looking into child SA allegations as to Sandra Birchmore's death in 2021.

"Why did you call the FBI prior to finishing your report to report your concerns?"

"I wanted to give FBI agent Kate Kelley a heads up as to things that might be investigated further at their level."

Reconstruction Notes

Reproduced court-day records: 77. The authenticated dataset contained 147 Grant-authored records dated October 15, 2026; records outside the live court-reporting scope were excluded under the method above.

Duplicate consolidation: status 2110767560748654967 duplicated 2110767553400225987; statuses 2110806620372385947, 2110806731190141040, 2110806735564791814, and 2110806739868168588 duplicated the text of 2110806568010981560. Only the first substantive copy is reproduced.

Potential retrieval gaps: The log reflects only Grant-authored records present in the authenticated 500-record retrieval. Absence of a post should not be treated as proof that no post existed. No secondary source was used to reconstruct missing material.

Post-court note excluded from the live log: At 4:25:38 PM EDT, Grant posted an additional courtroom-related observation concerning U.S. Attorney Leah Foley, but expressly attributed it to @Estey617 and @BoozeyBeauty. Because the stated method limits report content to Grant's own primary observations/testimony reporting, it is not incorporated into the court-day transcript-style log.
